

Trap Line

A Key West fishing captain takes on Florida's drug lords in an underground war that could cost him his freedom and his life in this gripping thriller from New York Times bestselling author Carl Hiaasen. Though he is one of Key West's most skilled fishing captains, Breeze Albury barely ekes out a living on the meager earnings of his trade. Meanwhile, Cuban and Colombian drug smugglers thrive all around and they have their sights set on Albury and his fishing boat. After the smugglers cut his three hundred trap lines and crush his livelihood, Albury is forced to run drugs to survive. But when he gets busted by the crooked chief of police and becomes a target of the drug machines' brutal hit men, Albury becomes a vigilante on the seas of South Florida, unleashing a fiery and relentless vengeance on Key West's most dangerous criminals.

In the fur trade, a trapline is a route along which a trapper sets traps for his or her quarry. Trappers traditionally move habitually along the route to set and check the traps, in so doing become skilled at traversing remote terrain, and become experts in the geography of the local area. **Making a Living on the Trapline Briarpatch Magazine** Trapline Marathon October 2017.
