

# Understanding Psychology: WITH PsychInteractive V 2.0 CD-ROM and PowerWeb

More popular than ever in colleges and universities worldwide, today's Understanding Psychology has been completely redesigned and revised to provide excellent support and solutions for instructors teaching the introductory course. This major revision integrates a variety of media elements that not only foster student understanding of psychology and of how psychology impacts students' everyday lives, but also allow students and instructors to assess students' mastery of psychology's key principles and concepts.
