

The Legend Of Sleepy Hollow (Annotated)

This unique version also includes the following bonus annotations:- Biography of the author- Historical context of the book- Literary critique

The Legend of Sleepy Hollow is a short story by Washington Irving contained in his collection *The Sketch Book of Geoffrey Crayon, Gent.*, written while he was living in Birmingham, England, and first published in 1820. With Irving's companion piece *Rip Van Winkle*, *The Legend of Sleepy Hollow* is among the earliest examples of American fiction still read today. The story is set circa 1790 in the Dutch settlement of Tarry Town, in a secluded glen called Sleepy Hollow. It tells the story of Ichabod Crane, a sycophantic, lean, lanky, and extremely superstitious schoolmaster from Connecticut, who competes with Abraham Brom Bones Van Brunt, the town rowdy, for the hand of 18-year-old Katrina Van Tassel, the daughter and sole child of a wealthy farmer, Baltus Van Tassel. As Crane leaves a party he attended at the Van Tassel home on an autumn night, he is pursued by the Headless Horseman, who is supposedly the ghost of a Hessian trooper who had his head shot off by a stray cannonball during some nameless battle of the American Revolutionary War, and who rides forth to the scene of battle in nightly quest of his head. Ichabod mysteriously disappears from town, leaving Katrina to marry Brom Bones, who was to look exceedingly knowing whenever the story of Ichabod was related. Although the nature of the Headless Horseman is left open to interpretation, the story implies that the Horseman was really Brom Bones in disguise.
