

Works, Vol. 3 (Classic Reprint)

And art itself may be defined as a single-minded attempt to render the highest kind of justice to the visible universe, by bringing to light truth, manifold and one, underlying its every aspect. It is an attempt to find in its forms, in its colours, in its light, in its shadows, in the aspects of matter and in the facts of life, what of each is fundamental, what is enduring and essential their one illuminating and convincing quality the very truth of their existence. The artist, then, like the thinker or the scientist, seeks the truth and makes his appeal. Impressed by the aspect of the world the thinker plunges into ideas, the scientist into facts whence, presently emerging, they make their appeal to those qualities of our being that fit us best for the hazardous enterprise of living. They speak authoritatively to our common sense, to our intelligence, to our desire of peace, or to our desire of unrest ;not seldom to our prejudices, sometimes to our fears, often to our egoism but always to our credulity.(Typographical errors above are due to OCR software and dont occur in the book.)About the Publisher Forgotten Books is a publisher of historical writings, such as: Philosophy, Classics, Science, Religion, History, Folklore and Mythology.Forgotten Books Classic Reprint Series utilizes the latest technology to regenerate facsimiles of historically important writings.
