

Yes We Have No Bananas

Blending the down-and-out realism of Harvey Pekar with quantum physics, this alternate history tale presents a world uncannily like and unlike ours, where one mans humble quest for a life worth living is rewarded in odd ways. From prolific, genre-breaking writer Paul Di Filippos Wikiworld, this short story is one of a set of mind-bending tales of humanitys alternate pasts, all too recognizable present, and far-flung futures. ChiZine Publications (CZP) curates the best of the bizarre, bringing you the most excitingly weird, subtle, dark, and disturbing literary fiction.
